

# YPI Presentations

Ready, Set, Present!

## Reminders: ☺

Plan very carefully so that every member of the team has an active role to play in the presentations.

If you are using any kind of audio / visual or internet in your presentation make sure it is all working properly before you start.

Take the time to rehearse and ask for feedback from other students / teachers / parents several times before you give your presentation in class.

## YPI Speak Out Video:

As you watch the video, think about:

what different techniques do the students use to present their information?

what different skills do you have in your own team? How can you be creative?

How can you give helpful feedback to other teams when they rehearse their presentation?

## Once you've completed your research:

Put together a 10 minute presentation about the work the charity does.

### Videos

You can prepare and use videos, but not charity produced videos.

Videos can present no more than 5 minutes of the presentation time.

# YPI Speak Out Video:

AS you watch the video, think about:

- what different **techniques** do the students use to present their information?
- what different **skills** do you have in your own team? How can you be **creative**?
- How can you give helpful **feedback** to other teams when they rehearse their presentation?

Take the time to  
rehearse AND ask for  
feedback from other  
students / teachers /  
parents several times  
before you give your  
presentation in class.

**Use the YPI  
Success Criteria  
to ensure you  
include all the  
necessary  
information in your  
presentation.**

# Reminders:

- Plan very carefully so that every member of the team has an active role to play in the presentations.
- If you are using any kind of audio / visual or internet in your presentation make sure it is all working properly before you start.

Reflect on your  
learning and  
stay engaged!

### Skills Development

- What skills did you develop during Y9, before, during and after your charity visit?
- How will these skills be useful in future plans? Education? Exams? Jobs? Volunteering?

### Personal Development

What has it meant to you to identify your key values? Have your values changed at all?

How have your opinions or preconceptions changed about local charities? The people who work there? The people they work with?

If someone had no money but wanted to help their community, what would you recommend?

Reflect on your  
learning and  
stay engaged!
